PRYOTECHNICS PERMIT

The following conditions will apply for all outdoor fireworks displays:

1. A permit must be obtained from the Building Department, Application attached.
2. Detailed plan showing fireworks location and direction must be filed.
3. All ground displays shall be located a minimum of 75 feet from all spectator locations.
4. All shell tubes must face away from ground spectators.
5. If tubes face river, shall insure a spectator (boat) distance of 150 feet.
6. All ground displays shall be located at least 100 feet from any tents or combustible structures.
7. Unexploded shells shall rest for 15 minutes, before thorough dousing with water.
8. After dousing with water unexploded shells shall rest an additional 5 minutes before removal.
9. Fire apparatus must be onsite prior to the start of the display.
10. Approval to start must be confirmed by Building personnel onsite.
11. If wind speed exceeds _____ miles per hour, display will be cancelled.
