

Waste cans placed on a City street, right-of-way, or in a park cannot be used for disposal of residential, business, or commercial trash. The intended purpose of these cans is to reduce littering.

The City has provided this information to all property owners to improve the cleanliness and appearance of the City. Landlords are urged to provide information to all new tenants. Property owners are responsible for their properties and the actions of their tenants. The City vigorously enforces all sanitation ordinances and violations, and violators will be cited in accordance with the ordinances. Fines range from \$25.00 to \$2,500.00.
